LATEST EVENTS

JULY 12

MFUC hosted on July 12th its Point Of Contact Sharing Session on the thematic “Let's Collaborate with France”. It was a good opportunity for all the participants to know more about the large panel of opportunities offered to them to

develop their project with French higher education and research institutions.

JULY 15

On July 15, MFUC organized its annual Pre-Departure briefing. The objective of this event is to provide students with the best tips and advices to prepare their stay in France for a safe and easy arrival.

During this year online briefing, we had the pleasure to invite the participants to some quizzes and to listen to the experiences from Malaysian students who are currently studying in France. Have a safe trip everyone!

SEPTEMBER 18

The Seminar Perancis SIRI 1 (Virtual Education Fair) was held on September 18. This Seminar co-organized by Universiti Sains Malaysia, Unkl Mfi and MFUC helped students to learn more about scholarship programs and undergraduate experiences in France.

FOCUS ON...

The Erasmus+ 2021-2027 programme

Worldwide in October every year, we celebrate the **Erasmus Days**. It is the occasion to gather people around one of the flagship program of the European Union, the **Erasmus programme**. MFUC will take part this year, stay tuned on our social media and don't hesitate to participate!

Erasmus + is the European programme for education, training, youth and sport. It is open to everyone in the field of education and training, both formal and non-formal.

The programme aims to give students, trainees, pupils, apprentices, teachers, trainers, staff, jobseekers, young people, etc. the opportunity to spend time (study, work placement) abroad to enhance their knowledge, skills and employability.

It helps organisations to work in European and international partnerships with a wide range of private and public stakeholders. It enables the sharing of know-how and innovation and is accessible for all the institutions working in higher education and research.

Therefore, many organisations can participate in the Erasmus+ programme: associations, schools, institutions, etc. Funding is available for mobility and exchange projects as well as for partnerships and cooperation between organisations.

Many actions can be implemented in Malaysia:

- Erasmus Mundus Master Programme;
- International Credit Mobility;
- Capacity building projects;
- And many more!

Interested to know more on the Erasmus programme?
Don't hesitate to follow this [link](#) or to contact us (info@mfuc.org).

PORTRAIT OF A RESEARCHER

Dr Laurent Guillaumat

ENSAM (Arts et Métiers - Institute of Technology)

We introduce to you today Dr Laurent Guillaumat,

Dr Naufal Saad and Dr Laurent Guillaumat

Dr Laurent Guillaumat holds a PhD in Materials Engineering from Bordeaux University. He is now a University Professor at [Arts et Métiers \(ENSAM\)](#) – Campus d'Angers, an Engineering school in France with an international reputation in education and research with more than 250 years of tradition in technical innovation and industrial engagement.

He is attached more specifically to the laboratory [LAMPA](#), a structure engaged in the development of fundamental and applied research in the fields of innovation, advanced manufacturing processes and the durability of materials and structures.

He already visited Malaysia around 10 times for research and work-related projects and always appreciates the beauty of the country and the friendliness of its inhabitants. He is also a fan of teh tarik!

He first visited Malaysia in 2008, and during this trip he met Dr Naufal Saad, from Universiti Teknologi Petronas. Indeed, Dr Naufal organizes regularly workshops to which he invites researchers from different universities. That is how Dr Guillaumat got the opportunity to meet researchers at UTP working on the same topics.

Together, they developed a co-tutelle program (dual PhD) between UTP and ENSAM. The cooperation went even further when their research project got selected this year under the MATCH programme, (funded by the Embassy of France in Malaysia). He also gave lectures to Malaysian students as an invited professor directly at UTP and welcomed interns from Malaysia in his laboratory for 3 or 4 months.

MFUC deeply thanks him for his contribution to the collaboration between Malaysia and France! If you are interested to develop new projects with Dr Guillaumat or ENSAM, don't hesitate to contact him.

Contact: Dr. Laurent Guillaumat, laurent.guillaumat@ensam.eu

CALLS FOR APPLICATIONS

Euro-ASEAN Blended MBA (dual degree – Kedge BS/MUST)

On 26 January 2021, KEDGE Business School and Malaysia University of Science and Technology (MUST) penned a virtual agreement for a dual degree award collaboration in bringing the **Euro-ASEAN Blended MBA** to this part of the world. This will enable all potential MBA candidates to embark on a triple crown accredited MBA journey, something that only 1% of the world's business schools possess.

The enrollment begins in October 2021 for the inaugural batch which kicks off in January 2022.

WHAT'S GOING ON ?

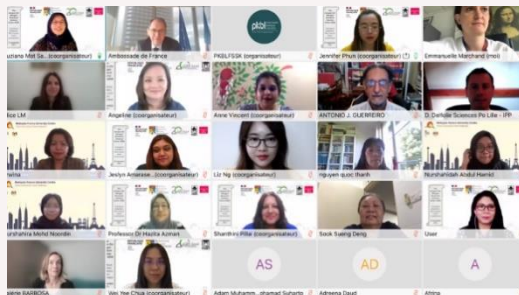

New Platform Etudes en France

A new process is now available to apply to studies in France. From October 1st 2021 and until January 1st 2022, you will be able to apply for a programme in France via the [platform Study in France](#).

Don't miss out on the opportunity to apply to go study in France!

INTI – CY Cergy Université Memorandum of Understanding

On September 22nd, representatives of MFUC were invited to assist to the signing ceremony of a Memorandum of Understanding between INTI International University & Colleges, and CY Cergy-Paris Université. This new collaboration will provide an enriching and international experience to students who enroll in the Bachelor of Culinary Arts & Food Service Management programme offered by the School of Hospitality at INTI in cooperation with CY Cergy Paris.

The Jacques de Morgan Research Seminar Series (UKM)

The Jacques de Morgan Research Seminar Series - UKM on [“Translocal Mobilities: The French-Asian Connection”](#) was held on September 22nd. This Webinar was organized by the research team of the project “French Humanist Perspectives on community life in Nineteenth Century Malaya” from the Universiti Kebangsaan Malaysia – UKM.

MFUC and ParisTech Webinar

On July 13th, in cooperation with ParisTech, MFUC organized a webinar on the opportunities offered by this prestigious consortium of seven “Grandes Ecoles” in engineering and science. ParisTech has an average of 30% international students coming from 75 countries and a specific program is dedicated to Asian students who wish to get trained in these top schools.

The replay of the webinar is available [here](#).

New MFUC French Co-Director

We are pleased to welcome our new co-Director and Attachée for Science and Higher Education at the French Embassy in Malaysia, Dr. Valérie Barbosa.

Selamat datang ke Malaysia!
